NAMIBIAN BENCHMARK TARIFFS FOR SERVICES BY DENTAL PRACTIONERS WITH A PRACTICE NUMBER COMMENCING WITH (054, 062, 064, 092, 094, 098) WITH EFFECT FROM 1 JANUARY 2025

GENERAL GUIDELINES

THIS SCHEDULE IN NO WAY CONSTITUTES AN AGREEMENT BETWEEN ANY PARTIES.

ALL BENCHMARK TARIFFS ARE INCLUSIVE OF VAT

INTRODUCTION TO THIS PUBLICATION

General Dental Practitioners, Maxillo-Facial and Oral Surgeons, Orthodontists, Periodontists, Prosthodontists and Oral Pathologists are healthcare practitioners registered as such with the Medical and Dental Council of Namibia in terms of the Medical and Dental Act, 2004 Act No. 10 of 2004).

1 This schedule includes procedures performed by general dental practitioners, maxillo-facial and oral surgeons, orthodontists, periodontists, prosthodontists and oral pathologists
2 The Namibian Benchmark Tariffs are published as a guide to medical aid funds and their members and to dental practitioners and their patients
3 Dento-legal fees. Practitioners are entitled to remuneration if they are present at Court at the request of an advocate or attorney, even if they are not called to give evidence.

In terms of relevant legislation applicable in Namibia, regulations set out in the Schedule hereto were made:

RULES

4 The following Rules apply to all practitioners:

001 Item 8101 refers to a Full Mouth Examination, charting and treatment planning and no further examination fees shall be chargeable until the treatment plan resulting from this consultation is completed with the exception of Item 8102. This includes the issuing of a prescription where only medication is prescribed.

Item 8104 refers to a consultation for a specific problem and not to a full mouth examination, charting and treatment planning. This includes the issuing of a prescription where only medication is prescribed

002 Except in those cases where the fee is determined "by arrangement", the fee for the rendering of a service which is not listed in this schedule shall be based on the fee in respect of a comparable service that is listed therein, and Rule 002 must be indicated together with the item number.

© The Namibian Association of Medical Aid Funds

004 In exceptional cases where the rate is disproportionately low in relation to the actual services rendered by a practitioner, such higher fee as may be mutually agreed upon between the dental practitioner and the patient/fund may be charged and Rule 004 must be indicated together with the item number.

008 See a and b

(a) Every dentist shall render a monthly invoice for every procedure which has been completed irrespective of whether the total treatment plan has been concluded.

(b) Every invoice shall contain the following particulars:

(i) the surname and initials of the member;

(ii) the first name of the patient;

(iii) the name of the medical aid fund;

(iv) the membership number of the member;

(v) the practice number;

(vi) date on which every service was rendered;

(vii) the relevant diagnosis and code (ICD-10) of the procedure used in the Namibian Benchmark Tariff.

(viii) where the invoice is a photocopy of the original, certification by way of a rubber stamp or the signature of the dentist; and

(ix) a statement of whether the invoice is in accordance with the Namibian Benchmark Tariff.

(x) The name of the dentist rendering the service must be shown on the invoice.

009 Dentists in general practice shall be entitled to charge two-thirds of the fees/benefits of specialists only for treatment that is not listed in the schedule for dentists in general practice and Modifier 8004 must be shown against any such item.

Benefits in respect of specialists charging treatment procedures not listed in the schedule for that speciality, shall be allocated as follows:

General Dental Practitioners Schedule	- 100%
Other Dental Specialists Schedules	- 2/3

010 Fees charged by dental technicians for their services (PLUS L) shall be shown on the dentist's invoice against the code 8099. Such dentist's invoice shall be accompanied by the actual invoice of the dental technician (or a copy thereof) and the invoice of the dental technician shall bear the signature of the dentist (or the person authorised by him) as proof that it has been compiled correctly. "L" comprises the fee charged by the dental technician for his services as well as the cost of gold and of teeth. For example, item 8231 is specified as follows:

© The Namibian Association of Medical Aid Funds

	N$
8231	
8099 (8231)	Y
Total	X + Y

011 Modifiers may only be used where (M) appears against the item in the schedule.

8001 33 1/3% of the appropriate scheduled fee/benefit (see Note 4 - preamble to Maxillo-facial and oral surgery schedule)

8002 The appropriate scheduled fee/benefit + 50% (see Note 1 - preamble to Maxillo-facial and oral surgery schedule) 8003 The appropriate scheduled fee/benefit + 10%

8004 Two-thirds of appropriate scheduled fee/benefit (see Rule 009)

8005 The appropriate scheduled fee/benefit up to a maximum of N$ 548.90 (see Note 2 - preamble to Maxillo-facial and oral surgery schedule)

8006 50% of the appropriate scheduled fee/benefit (see Note 3 - preamble to Maxillo-facial and oral surgery schedule)

8007 15% of the appropriate scheduled fee/benefit with a minimum of N$ 351.60 (See preamble (s) under 'oral surgery' in the schedule for GPs, the schedule for specialists in oral medicine and periodontics, and the schedule for specialists in Maxillo-facial and oral surgery)

8008 The appropriate scheduled fee/benefit + 25% (see Note 5 - preamble to Maxillo-facial and oral surgery schedule, GPs' schedule)

8009 75% of the appropriate scheduled fee/benefit

8010 The appropriate schedule fee/benefit plus 75%

012 In cases where treatment is not listed in the schedule for dentists in general practice then the appropriate fee/benefit listed in the medical schedules for general medical practitioners (Practice type "014") shall be charged and the relevant item in the medical schedules must be indicated. In cases where treatment is not listed in the schedule for dentists in specialist practice then the appropriate fee/benefit listed in the medical schedules for specialist surgeons (Practice type "042") shall be charged and the relevant item in the medical schedules must be indicated (Note: This rule specifically applies to not listed treatments of procedures only and does not apply to codes in the medical practitioner schedules that pertain to the recovery of costs associated with materials or consumables.)

013 Cost of material (VAT inclusive): This item provides for a charge for material where indicated against the relative item codes by the words (See Rule 013). Material to be charged for at cost plus a handling fee not exceeding 35%, up to N$ 4,240.20. A maximum handling fee of 10% shall apply above a cost of N$ 4,240.20. A maximum handling fee of N$ 8,016.80 will apply

Note: Item 8220 (suture) is applicable to all registered persons

014 Cone Beam Computed Tomography (CBCT) is not a first line investigation and the use thereof must be restricted to specific and appropriate clinical circumstances. Exceptions will be subject to prior approval on an individual patient basis based upon specific clinical circumstances:

- CBCT records may not be taken without complete medical and dental history, that must be completed with sound clinical discretion for each patient
- CBCT records may not me taken for routine examinations
- CBCT may not be taken for children younger than 10 years unless it forms part multi-disciplinary approach for specific disease or treatment with specialized clinicians involved
- CBCT examination for orthodontic treatment in not-indicated and alternative diagnostic x-ray examination like, panoramic x-rays, Cephalogram etc. should be considered
- CBCT is not indicated for method of caries detection and diagnoses
- CBCT is not indicated as routine method of imaging periodontal bone support
- CBCT is not indicated for standard method of identification of periapical pathosis
- CBCT imaging for endodontic treatment is not standard method of demonstration of root canal anatomy
- CBCT is indicated for assessment prior to implant placement

015 Cone Beam Computed Tomography (CBCT) may only be charged the lesser of once per treatment plan or per benefit year.

EXPLANATIONS

5 Additions, deletions and revisions

A summary listing of additions, deletions and revisions applicable to this Schedule is found in Appendix A

6 Tooth identification

Tooth identification is compulsory for all invoices rendered at the Namibian Benchmark Tariffs. It is recommended that practitioners charging fees as per the Benchmark Tariffs follow the same format. Tooth identification is only applicable to procedures identified with the letter (T) in the mouthpart (MP) column. The International Standards Organisation (ISO) in collaboration with the FDI designated system for teeth and areas of the oral cavity, should be used. For supernumeraries, the abbreviation SUP should be used

7 Treatment categories

Treatment categories (TC) of dental procedures are identified in the TC column of the schedule as follows:
Basic dentistry designated as (B) in this schedule
Advanced dentistry
Maxillo-facial and oral surgery designated as (S) in this schedule

8 Abbreviations used in the Schedule

+D	Add fee/benefit for denture
+L	Add laboratory fee
A	Advanced dentistry (TC)
B	Basic dentistry (TC)
GP	General practitioner
S	Maxillo-facial and oral surgery (TC)
M	Modifier
MP	Mouth part
Na	not applicable
T	Tooth
TC	Treatment category

I. GENERAL DENTAL PRACTITIONERS

Preamble

1 The dental procedure codes for general dental practitioners are divided into twelve (12) categories of services. The procedures have been grouped under the category with which the procedures are most frequently identified. The categories are solely for convenience in using the Schedule and should not be interpreted as excluding certain types of Oral Care Providers from performing or reporting such procedures. General practitioners are advised to become familiar with the details of these categories since it is similar to the Current Dental Terminology Second Edition (CDT-2).

(2M) Procedures not described in the general practitioners' schedule should be reported by referring to the relevant specialist's schedule. Dentists in general practice shall be entitled to charge two-thirds of the fees/benefits of specialists only for treatment that is not listed in the schedule for dentists in general practice and Modifier 8004 must be shown against any such item (See Rules 009 and 011). There are no specific codes for orthodontic treatment in the current general practitioner's schedule, and the general practitioner must refer to the specialist orthodontist's schedule.

(3M) Oral and maxillo-facial surgery (Section J of the Schedule): The fee/benefit payable to a general practitioner assistant shall be calculated as 15% of the fee/benefit of the practitioner performing the operation, with the indicated minimum (see Modifier 8007). The patient must be informed beforehand that another dentist will be assisting at the operation and that a fee/benefit will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient.

I. GENERAL DENTAL PRACTITIONERS

Item	Description	N$	LAB	MP	TC
	A. DIAGNOSTIC				
	Clinical oral evaluations				
8101	Full mouth examination, charting and treatment planning (see Rule 001)	254.70			B
8102	Comprehensive consultation	479.00			B
	A comprehensive consultation shall include treatment planning at a separate appointment where a diagnosis is made with the help of study models, full-mouth x-rays and other relevant diagnostic aids. Following on such a consultation, the patient must be supplied with a comprehensive written treatment plan which must also be recorded on the patient's file and which must include the following: - Soft tissue examination - Hard tissue examination - Screening/probing of periodontal pockets - Mucogingival examination - Plaque index - Bleeding index - Occlusal Analysis - TMJ examination - Vitality screening of complete dentition				
8104	Examination or consultation for a specific problem not requiring full mouth examination, charting and treatment planning	137.40			B
	Radiographs/Diagnostic imaging				
8107	Intra-oral radiographs, per film	135.40			B
8108	Maximum for 8107	1 061.20			B
8113	Occlusal radiographs	234.50			B
8114	Hand-wrist radiograph	549.80			A
8115	Extra-oral radiograph, per film (I.e. panoramic, cephalometric, PA)	549.80			B
	Chargeable to a maximum of two films per treatment plan				
	Tests and laboratory examinations				

Item	Description	N$	LAB	MP	TC
8812	CBCT capture and interpretation with limited field of view - less than one whole jaw	1 155.50			A
8813	CBCT capture and interpretation with limited field of view of one full dental arch - mandible	1 290.70			A
8814	CBCT capture and interpretation with limited field of view of one full dental arch - maxilla	1 290.70			A
8815	CBCT capture and interpretation with limited field of view of both dental arches without orbits and/or cranium	1 352.10			A
8816	CBCT capture and interpretation for TMJ series including two or more exposures	1 352.10			A
8817	CBCT capture and interpretation with limited field of view of one full dental arch - maxilla with orbits and/or cranium	1 475.10			A
8818	CBCT capture and interpretation with field of view of both dental arches - with orbits and/or cranium	1 647.20			A
8819	Interpretation of diagnostic image by a practitioner not associated with capture of the image, including the report	491.60			A
8820	CBCT image capture with limited field of view - less than one whole jaw	693.20			A
8821	CBCT image capture with limited field of view of one full dental arch - mandible	774.40			A
8822	CBCT image capture with limited field of view of one full dental arch - maxilla	774.40			A
8823	CBCT capture with limited field of view of both dental arches - without orbits and/or cranium	811.30			A
8824	CBCT capture for TMJ series including two or more exposures	811.30			A
8825	CBCT capture with limited field of view of one full dental arch - maxilla with orbits and/or cranium	885.00			A
8826	CBCT capture with field of view of both dental arches - with orbits and/or cranium	988.30			A
8117	Study models - unmounted	151.60	+L		B
8119	Study models - mounted on adjustable articulator	369.90	+L		B
8121	Diagnostic photographs, per photograph	151.60			B
8122	Bacteriological studies for determination of pathological agents May include, but is not limited to tests for susceptibility to periodontal disease. A perio risk assessment must on request be made available at no charge. (The use of this code is limited to general dental practitioners and specialists in community dentistry)	-			B
8123	Caries susceptibility tests Not to be used for carious dentin staining. A caries risk assessment must on request be made available at no charge. (The use of this code is limited to general dental practitioners and specialists in community dentistry) Not to be used for carious dentin staining. A caries risk assessment must on request be made available at no charge.	-			B

Item	Description	N$	LAB	MP	TC
	(The use of this code is limited to general dental practitioners and specialists in community dentistry)				
8811	Tracing and analysis of extra-oral film	62.60			B
	B. PREVENTIVE				
	Dental prophylaxis				
8155	Polishing only (including removal of plaque) - complete dentition	208.20			B
8159	Scaling and polishing	410.30			B
	Where item 8159 is applied, Item 8155 can not be charged				
8160	Removal of gross calculus	-			B
	This procedure is used when profuse bleeding prevents immediate polishing. Where item 8160 is applied, item 8159 can only be carried out at a subsequent visit.				
	This procedure is used when profuse bleeding prevents immediate polishing. Where item 8160 is applied, item 8159 can only be carried out at a subsequent visit.				
	Topical fluoride treatment (office procedure)				
8161	Topical application of fluoride (prophylaxis excluded) - complete dentition (Excluding scaling and/or polishing)	208.20			B
	Other preventive services				
8149	Nutritional counselling for control of dental disease	-			
	Counselling on food selection and dietary habits as a part of treatment and control of periodontal disease and caries Notes: - The need for nutritional counselling must be confirmed by a caries/perio risk assessment (See Codes 8122 and 8123). - A dietary habit analysis and food selection programme must on request be made available at no charge. - (The use of this code is limited to general dental practitioners and specialists in community dentistry)				
8150	Tobacco counselling for the control and prevention of oral disease	-			
	Tobacco prevention and cessation services reduce patient risks of developing tobacco related oral diseases and conditions and improve prognosis for certain dental therapies Notes: - The need for tobacco counselling must be confirmed by a caries/perio risk assessment (See codes 8122 and 8123) - A tobacco prevention and cessation services programme must on request be made available at no charge - (The use of this code is limited to general dental practitioners and specialists in community dentistry) - Persons are eligible for this treatment if a documented cessation date has been established. Tobacco cessation is limited to 10 services.				
8151	Oral hygiene instructions	208.20			B

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
	The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction				
8153	Follow-up visit for re-evaluation of oral hygiene (if no other preventative treatment is performed during the same visit)	155.60			B
8163	Fissure sealant, per tooth	135.40		T	B
	Chargeable to a maximum of two teeth per quadrant				
	Space maintenance (passive appliances)				
	Passive appliances are designed to prevent tooth movement.				
8173	Space maintainer - fixed, per abutment unit	390.10	+L		B
8175	Space maintainer - removable (all-inclusive fee)	493.20	+L		B
	C. RESTORATIVE				
	Note: Restorative material factor - an additional 10% can be added to codes 8341, 8342, 8343, 8344, 8351, 8352, 8353, 8354, 8367, 8368, 8369, 8370 by general dental practitioners only. See item 8346.				
8346	Restorative material factor. (See above note)	-			
	Amalgam restorations (including polishing)				
	All adhesives, liners and bases are included as part of the restoration. If pins are used, they should be reported separately.				
	See Codes 8345, 8347 and 8348 for post and/or pin retention				
	Inclusive of direct pulp capping (code 8301).				
8341	Amalgam - one surface	373.90		T	B
8342	Amalgam - two surfaces	468.90		T	B
8343	Amalgam - three surfaces	563.90		T	B
8344	Amalgam - four or more surfaces	632.60		T	B
	Resin restorations				
	Resin refers to a broad category of materials including but not limited to composites. May include bonded composite, light-cured composite, etc. Light-curing, acid etching and adhesives (including resin bonding agents) are included as part of the restoration. Glass ionomers and compomers, when used as restorations should be reported with these codes. If pins are used, they should be reported separately.				
	See Codes 8345, 8347 and 8348 for post and/or pin retention				
	Inclusive of direct pulp capping (code 8301) and rubber dam application (code 8304)				
8351	Resin - one surface, anterior	412.30		T	B
	NOTES TO AMALGAM AND RESIN RESTORATIONS				

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
	On anterior teeth, it is considered correct to charge for resin restorations, per restoration placed e.g.. a Class V and a Class IV restoration on a central incisor would attract fees for 8351 and 8354. On posterior teeth, it is considered correct to charge per surface treated if a similar material was used and not per restoration e.g., a Class I occlusal amalgam and a Class V buccal amalgam on tooth 28 would attract a fee for code 8342. In rare cases, it may occur that an occlusal amalgam on tooth 16 and a buccal resin on the same tooth in a patient with an unusually wide smile, may be necessary and fees could then be raised against code 8341 and 8367. For purposes of benefit allocation, items 8351 to 8354 are applicable per restoration (more than once per tooth), whereas items 8341 to 8344 or 8367 to 8370 are applicable once only per tooth				
	Gold foil restorations See the specialist prosthodontist schedule				
	Inlay/Onlay restorations METAL INLAYS Benefits for metal inlays on anterior teeth (incisors and canines) are `by arrangement'				
8352	Resin - two surfaces, anterior	523.50		T	B
8353	Resin - three surfaces, anterior	620.50		T	B
8354	Resin - four or more surfaces, anterior	695.30		T	B
8367	Resin - one surface, posterior	448.70		T	B
8368	Resin - two surfaces, posterior	551.80		T	B
8369	Resin - three surfaces, posterior	663.00		T	B
8370	Resin - four or more surfaces, posterior	723.60		T	B
8358	Inlay, metallic - one surface, anterior	-		T	A
8359	Inlay, metallic - two surfaces, anterior	-		T	A
8360	Inlay, metallic - three surfaces, anterior	-		T	A
8365	Inlay, metallic - four or more surfaces, anterior	-		T	A
8361	Inlay, metallic - one surface, posterior	636.70	+L	T	A
8362	Inlay, metallic - two surfaces, posterior	925.70	+L	T	A
8363	Inlay, metallic - three surfaces, posterior	1 538.20	+L	T	A
8364	Inlay, metallic - four or more surfaces, posterior	1 863.60	+L	T	A
	CERAMIC AND/OR RESIN INLAYS Porcelain/ceramic inlays presently include all ceramic or porcelain inlays. Composite/resin inlays must be laboratory processed				

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
	NOTE: Benefits exclude the application of a rubber dam (code 8304)				
8371	Inlay, ceramic/resin - one surface	760.00	+L	T	A
8372	Inlay, ceramic/resin - two surfaces	1 125.80	+L	T	A
8373	Inlay, ceramic/resin - three surfaces	1 851.40	+L	T	A
8374	Inlay, ceramic/resin - four or more surfaces	2 241.60	+L	T	A
8560	Cost of ceramic block	-		T	A
8570	Fabrication of computer generated ceramic restoration	2 374.90		T	A
	Applicable to computer generated prosthesis only				
	NOTES 1) In some of the above cases (e.g. Direct hybrid inlays) +L may not necessarily apply 2) In cases where the direct hybrid inlays are used and +L does not apply, Modifier 8008 may be used 3) See the General Practitioner's Guideline to the correct use of treatment codes for computer generated inlays.				
	Crown				
	The fees/benefits include the cost of temporary and/or intermediate crowns. See code 8193 (osseo integrated abutment restoration) in the `fixed prosthodontic' category for crowns on osseo-integrated implants				
8401	Cast full crown	2 379.00	+L	T	A
8403	Cast three-quarter crown	2 379.00	+L	T	A
8405	Acrylic jacket crown. (By arrangement)	-		T	A
8407	Acrylic veneered crown	2 379.00	+L	T	A
8409	Porcelain jacket crown	2 379.00	+L	T	A
8411	Porcelain veneered crown	2 379.00	+L	T	A
	Other restorative services				
8133	Re-cementing of inlays, crowns or bridges - per abutment	208.20	+L	T	B
	In some cases where item 8133 is used +L may not apply				
8135	Removal of inlays and crowns (per unit) and bridges (per abutment) or sectioning of a bridge, part of which is to be retained as a crown following the failure of a bridge	412.30	+L	T	A
8137	Temporary crown placed as an emergency procedure	711.50	+L	T	A
	Not applicable to temporary crowns placed during routine crown and bridge preparations i.e. where the impression for the final crown is taken at the same visit				
8146	Resin bonding for restorations	-			
	Applicable to any metal restorations, crowns or conventional bridges, per abutment except Maryland type bridges				
8157	Re-burnishing and polishing of restorations - complete dentition	208.20			B

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
	(Not applicable to restorations recently done)				
8330	Removal of fractured post or instrument and/or bypassing fractured endodontic instrument	274.90		T	B
	NOTE: Excluding the application of a rubber dam (code 8304).				
8345	Preformed post retention, per post (See Item 8379)	410.30		T	B
8347	Pin retention for restoration, first pin	202.10		T	B
8348	Pin retention for restoration, each additional pin. A maximum of two additional pins may be charged	192.00		T	B
8349	Carving or contouring a plastic restoration to accommodate an existing removable prosthesis	82.90		T	B
8355	Composite veneers (Direct)	723.60		T	B
8357	Preformed metal crown	422.40		T	B
8366	Pin retention as part of cast restoration, irrespective of number of pins	309.20		T	A
8376	Prefabricated post and core in addition to crown	1 129.90		T	B
	The core is built around a prefabricated post(s)				
8379	Cost of posts	-		T	A
	Applicable to pre-fabricated noble metal, ceramic, iridium and pure titanium posts - see code 8345				
8391	Cast post and core - single	477.00	+L	T	A
8393	Cast post and core - double	760.00	+L	T	A
8395	Cast post and core - triple	1 101.60	+L	T	A
8396	Cast coping	311.30	+L	T	A
8397	Cast core with pins	760.00	+L	T	A
	This service is usually provided on grossly broken-down vital teeth, and may not be charged when a post has been inserted in the tooth in question				
8398	Core build-up, including any pins	925.70		T	A
	Refers to building up of anatomical crown when restorative crown will be placed, irrespective of the number of pins used				
8413	Facing replacement	464.90	+L	T	A
8414	Additional fee for provision of crown within an existing clasp or rest	135.40	+L	T	A

D. ENDODONTICS

Preamble:

1) The Health Professions Council of SA has ruled that, with the exception of diagnostic intra-oral radiographs, fees/benefits for only three further intra-oral radiographs may be charged for each completed root canal therapy on a single-canal tooth; or a further five intra-oral radiographs for each completed root canal therapy on a multi-canal.

2) Benefit for the application of a rubber dam (See code 8304 in the category 'Adjunctive General Services') may only be charged concurrent with the following procedures, otherwise no benefits:

Item	Description	N$	LAB	MP	TC
	- Extirpation of the pulp chamber contents for the relief of pain (code 8132) - Apexification of a root canal (code 8305); - Pulpotomy (code 8307); - Complete root canal therapy (codes 8328, 8329 and 8332 to 8340); - Removal or bypass of a fractured post or instrument (code 8330); - Bleaching of non vital teeth (codes 8325 and 8327) and - Ceramic and or resin inlays (codes 8371 to 8374) 3) After endodontic preparatory visits (codes 8332, 8333 and 8334) have been charged, endodontic treatment completed at a single visit (codes 8329, 8338, 8339 and 8340) may not be levied				
	Pulp capping				
8301	Direct pulp capping (No benefit)	-		T	B
8303	Indirect pulp capping	278.90		T	B
	The permanent filling is not completed at the same visit				
	Pulpotomy				
8307	Amputation of pulp (pulpotomy)	274.90		T	B
	No other endodontic procedure may, in respect of the same tooth, be charged concurrent to code 8307 and a completed root canal therapy should not be envisaged (code 8304 excluded)				
	Endodontic therapy (including treatment plan, clinical procedures and follow-up care)				
	PREPARATORY VISITS (OBTURATION NOT DONE AT SAME VISIT)				
8332	Single-canal tooth, per visit	208.20		T	B
	A maximum of four visits per tooth may be charged				
8333	Multi-canal tooth, per visit	289.00		T	B
	A maximum of four visits per tooth may be charged				
	OBTURATION OF ROOT CANALS AT A SUBSEQUENT VISIT				
8335	First canal - anteriors and premolars	939.90		T	B
8328	Each additional canal - anteriors and premolars	390.10		T	B
8336	First canal - molars	1 297.60		T	B

	E. PERIODONTICS				
	Surgical services (including usual postoperative care)				
8185	Gingivectomy-gingivoplasty, per quadrant	1 087.40			A
8186	Gingivectomy-gingivoplasty, per sextant	865.10			A
	Adjunctive periodontal services				
	1) A periodontal screening (code 8176) is a procedure carried out as part of a continuing maintenance programme in a periodontally compromised patient. The screening should include a complete charting, bleeding index and plaque index, measuring of all pocket depths and recording of all such measurements				
	2) Note to codes 8177, 8178, 8179, 8180, 8182 and 8184:				
	3) This diagnosis must be reviewed within a period of three years using the same criteria as in 1 above				
8182	Root planing with or without periodontal curettage, per quadrant	832.80			A
8184	Root planing with or without periodontal curettage, per sextant	660.90			A
	Codes 8182 and 8184 may not to be charged concurrent with a prophylaxis (codes 8159, 8160 and 8180) and only if a comprehensive consultation (8102) or a periodontal screening (8176) has been performed at a prior visit.				
	Other periodontal services				
8176	Periodontal screening	252.70			B
8177	Oral hygiene instruction for the periodontally compromised patient	315.30			B
	The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction				
8178	Oral hygiene evaluation for the periodontally compromised patient	169.80			B
8179	Plaque removal for the periodontally compromised patient	236.50			B
8180	Scaling and polishing for the periodontally compromised patient	444.70			B
	F. PROSTHODONTICS (REMOVABLE)				
	Complete dentures (including routine post-delivery care)				
8231	Full upper and lower dentures inclusive of soft bases or metal bases, where applicable	3 355.30	+L		B
8232	Full upper or lower dentures inclusive of soft base or metal base, where applicable	2 067.70	+L		B
	Partial dentures (including routine post-delivery care)

8253	Wrought gold clasp or rest per clasp or rest	192.00	+L		A
8255	Stainless steel clasp or rest per clasp or rest	200.10	+L		B
8257	Lingual bar or palatal bar	234.50	+L		B
	Codes 8251, 8253, 8255 and 8257 may not be charged concurrent to codes 8169 (biteplate), 8175 (space maintainer), 8269 (repair of denture) or 8281 (metal framework).				
8265	Tissue conditioner and soft self-cure interim re-line, per denture	329.50			B
8277	Gold inlay in denture (By arrangement)	-			
8279	Metal (e.g. chrome cobalt, gold, etc.) base to full denture. (No benefit)	-			
	G. MAXILLOFACIAL PROSTHETICS				
	See the schedule for specialist prosthodontists				
	H. IMPLANT SERVICES				
	NAMAF does not approve of the re-use of any implant components because of the hazards to the patient.				
	Report surgical implant procedures using codes in this section; prosthetic devices should be reported using existing fixed or removable prosthetic codes.				
	Endosteal implants				
	Endosteal dental implants are placed into the alveolar and/or basal bone of the mandible or maxilla and transect only one cortical plate				
8194	Placement of a single osseo-integrated implant per jaw	1 932.30		T	S
8195	Placement of a second osseo-integrated implant in the same jaw	1 445.20		T	S
8196	Placement of a third and subsequent osseo-integrated implant in the same jaw per implant	962.10		T	S
8197	Cost of implants (By arrangement)	-			
8198	Exposure of a single osseo-integrated implant and placement of a transmucosal element	715.50		T	S
8199	Exposure of a second osseo-integrated implant and placement of a transmucosal element in the same jaw	537.60		T	S
8200	Exposure of a third and subsequent osseo-integrated implant in the same jaw, per implant	359.80		T	S
	Eposteal implants				
	Eposteal (subperiosteal) dental implants receive their primary bone support by means of resting on the alveolar bone.				
	See the specialist maxillo-facial and oral surgeons schedule				

Item	Description	N$	LAB	MP	TC
	Transosteal implants				
	Transosteal dental implants penetrate both cortical plates and pass through the full thickness of the alveolar bone.				
	See the specialist maxillo-facial and oral surgeons schedule				
	I. PROSTHODONTICS, FIXED				
	The words `bridge' and `bridgework' have been replaced by the statement `fixed partial denture' Each abutment and each pontic constitutes a unit in a fixed partial denture.				
	Fixed partial denture pontics				
8420	Sanitary pontic	1 156.20	+L	T	A
8422	Posterior pontic	1 538.20	+L	T	A
8424	Anterior pontic (including premolars)	1 940.40	+L	T	A
	Fixed partial denture retainers - inlays/onlays				
	See inlay/onlay restorations for inlay/onlay retainers				
8356	Bridge per abutment - only applicable to Maryland type bridges	925.80	+L	T	A
	Fixed partial denture retainers - crowns				
	See crowns, single restorations for crown retainers				
8193	Osseo-integrated abutment restoration, per abutment	3 082.40	+L	T	A
	J. ORAL AND MAXILLOFACIAL SURGERY				
	See the specialist maxillo-facial and oral surgeons schedule for surgical services not listed in this schedule.				
	Extractions				
8201	Single tooth	208.20		T	B
	Code 8201 is charged for the first extraction in a quadrant.				
8202	Each additional tooth in the same quadrant	82.90		T	B
	Code 8202 is charged for each additional extraction in the same quadrant.				
	Surgical extractions (includes routine postoperative care)				
	Code 8220 is applicable when sutures are provided by practitioner

Item	Description	N$	LAB	MP	TC
8209	Surgical removal of erupted tooth requiring elevation of mucoperiosteal flap and removal of bone and/or section of tooth (including cutting of gingiva and bone, removal of tooth structure and closure)	895.40		T	S
8210	Removal of unerupted or impacted tooth - first tooth	1 489.70		T	S
8211	Removal of unerupted or impacted tooth - second tooth	802.40		T	S
8212	Removal of unerupted or impacted tooth - each additional tooth	452.80		T	S
8213	Surgical removal of residual roots (cutting procedure) (includes cutting of soft tissue and bone, removal of tooth structure and closure)	895.40		T	S
8214	Surgical removal of residual roots (cutting procedure) each subsequent tooth root (Includes cutting of gingiva and bone, removal of tooth structure and closure)	695.30		T	S
	Other surgical procedures				
8188	Biopsy - intra-oral This item does not include the cost of the essential pathological evaluations	529.60			S
8215	Surgical exposure of impacted or unerupted teeth for orthodontic reasons	1 661.50		T	S
	Reduction of dislocation and management of other temporomandibular joint dysfunction				
8169	Bite plate for the treatment of TMJ dysfunction, or occlusal guards.	802.40	+L		B
	Repair of traumatic wounds				
8192	Appositioning (i.e., suturing) of soft tissue injuries	1 024.80			S
	K. ORTHODONTICS See the specialist orthodontist schedule for orthodontic services				
	L. ADJUNCTIVE GENERAL SERVICES				
	Unclassified treatment				
8131	Palliative [emergency] treatment for dental pain This is typically reported on a 'per visit' basis for emergency treatment of dental pain where no other treatment item is applicable or applied for treatment of the same tooth	208.20		T	B
8221	Local treatment of post-extraction haemorrhage - initial visit (Excluding treatment of bleeding in the case of blood dyscrasias, e.g. haemophilia)	155.60			S
8223	Local treatment of post-extraction haemorrhage - each additional visit	103.10			S

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
8225	Treatment of septic socket - initial visit	155.60			S
8227	Treatment of septic socket - each additional visit	103.10			S
	Anaesthesia				
8141	Inhalation sedation - first quarter-hour or part-thereof	155.60			B
8143	Inhalation sedation - each additional quarter-hour or part thereof	76.80			B
	No additional fee/benefit to be charged for gases used in the case of items 8141 and 8143				
8144	Intravenous sedation	93.00			B
	Intravenous sedation (item 8144) should be performed by a suitably qualified medical or dental practitioner who is not performing the associated procedure				
8147	Use of own monitoring equipment in rooms for procedures performed under intravenous sedation	329.50			
8145	Local anaesthetic, per visit	40.40			B
	Item 8145 includes the use of the Wand				
8499	The relevant NAMAF services shall apply to general anaesthetics for dental procedures.	-			
	Professional consultations				
8106	Provision of a written treatment plan and quotation where prior authorisation is required by medical aid funds (By arrangement)	345.60			A
	This code is not applicable to routine enquiries to assess benefit available, or responses to enquiries of medical aid funds to verify charges by dental practitioners. Also not applicable to furnishing copies of existing and necessary records.				
	Professional visits				
8129	Additional fee/benefit for emergency treatment rendered outside normal working hours (including emergency treatment carried out at hospital) Not applicable where a practice offers an extended hours service as the norm	513.40			A
8140	Fee for treatment at a venue other than the surgery, inclusive of hospital visits, treatment under general anaesthetic, home visits; per visit	337.50			B
	Code 8140 may be applied concurrent with codes 8101 or 8104, but in accordance with rule 001				
	Drugs, medicaments and materials				
8183	Intra-muscular or sub-cutaneous injection therapy, per injection	93.00			B
	(Not applicable to local anaesthetic)				
8220	Use of suture provided by practitioner	-			
8310	Supply of bleaching materials (By arrangement)	-

Item	Description	N$	LAB	MP	TC
	Miscellaneous services				
8105	Appointment not kept - per half-hour (By arrangement with patient)	-			
8109	Infection control, per dentist, per hygienist, per dental assistant, per visit	34.40			B
	Code 8109 includes the provision by the dentist of new rubber gloves, masks, etc. for each patient				
8110	Provision of sterilised and wrapped instrumentation in consulting rooms	76.80			S
	The use of this code is limited to heat, autoclave or vapour sterilised and wrapped instruments				
8167	Treatment of hypersensitive dentine, per visit	159.70			B
8168	Behaviour management, by report	-			
	Notes: The report must on request be made available at no charge. The use of this code is limited to general dental practitioners and specialists in community dentistry Limitation May be reported in addition to treatment provided when the patient is developmentally disabled, mentally ill, or is especially uncooperative and difficult to manage, resulting in the dental staff providing additional time, skill and/or assistance to render treatment. The Code can only be billed where an office treatment requires extraordinary effort and is the only alternative to general anaesthetics. Includes any and all pharmacological, psychological, physical management adjuncts required or utilised. Notation and justification must be written in the patient record identifying the specific behaviour problem and the technique used to manage it. Billed in 15 minute units. (max 4 units per visit and allowed once per patient per day) Limit of 12 units per year.				
8170	Minor occlusal adjustment	456.80			B
	(Not applicable to adjustment of restorations placed as part of a current treatment plan)				
8171	Mouth protectors (By arrangement)	-	+L		B
8304	Rubber dam, per arch	161.70			B
	(See the NAMAF guidelines for the application of a rubberdam in the preamble to the category 'Endodontics')

8596	Cost of posts	-		T	A
	Applicable to pre-fabricated noble metal, ceramic, iridium and pure titanium posts.				
	Implants				
	NAMAF does not approve of the re-use of any implant components because of the hazards to the patient.				
8592	Osseo-integrated abutment restoration, per abutment	4 072.80	+L	T	A
8600	Cost of implant components (By arrangement)	-	+L	T	A
8590	Periodic maintenance of existing implant prosthesis, per abutment	255.30		T	A
9190	Exposure of a single osseo-integrated implant and placement of a transmucosal element	966.50		T	A
9191	Exposure of a second osseo-integrated implant and placement of a transmucosal element in the same jaw	725.40			S
9192	Exposure of a third and subsequent osseo-integrated implant in the same jaw, per implant	486.30			S
	Connectors				
8597	Locks and milled rests	283.70	+L	T	A
8599	Precision attachments	693.00	+L	T	A
	Crowns				
8601	Cast three-quarter crown	3 495.30	+L	T	A
8603	Cast gold crown	3 495.30	+L	T	A
8605	Acrylic veneered gold crown	3 495.30	+L	T	A
8607	Porcelain jacket crown	3 495.30	+L	T	A
8609	Porcelain veneered metal crown	3 495.30	+L	T	A
	Bridges				
	(Retainers as above)				
8611	Sanitary pontic	2 111.40	+L	T	A
8613	Posterior pontic	2 585.50	+L	T	A
8615	Anterior pontic	2 792.20	+L	T	A
	Resin bonded retainers				
8617	Per abutment	1 807.40	+L	T	A
	Per pontic (see 8611, 8613, 8615)				
8618	Resin bonding for restorations (By arrangement)	-			
	Applicable to any metal restorations, crowns or conventional bridges, per abutment except Maryland type bridges

Item	Description	N$	LAB	MP	TC
	Conservative treatment for temporomandibular joint dysfunction.				
8625	Bite plate for TMJ dysfunction	1 049.60	+L		S
8621	First visit for treatment of TMJ dysfunction	285.70			S
8623	Follow-up visit for TMJ dysfunction	216.80			S
	The number of visits and charge therefore depends on the relation between the practitioner and the patient, and the problems involved in the case.				
	Endodontic and bleaching procedures, etc.				
	ROOT CANAL THERAPY				
	Procedure codes 8631, 8633 and 8636 include all X-rays and repeat visits.				
8631	Root canal therapy, first canal	2 451.80		T	B
8633	Each additional canal	611.90		T	B
8636	Re-preparation of previously obturated canal, per canal	368.80		T	B
	BLEACHING				
	Modifier 8002 is applicable to procedure codes 8325, 8327				
8325	Bleaching of non-vital teeth, per tooth as a separate procedure	488.30		T	A
8327	Each additional visit for bleaching of non-vital tooth as a separate procedure	235.10			A
	A maximum of two additional visits may be charged				
8308	Bleaching of vital teeth, per arch, per visit (By arrangement)	-			A
	The unpredictability and lack of permanence of this procedure should be pointed out, and alternative procedures discussed with the patient				
	OTHER ENDODONTIC PROCEDURE				
8635	Apexification of root canal, per visit	407.30		T	B
8637	Hemisection of a tooth, resection of a root or tunnel preparation (as an isolated procedure)	1 357.60		T	A
9015	Apicectomy including retrograde root filling where necessary - anterior teeth	1 357.60		T	S
9016	Apicectomy including retrograde root filling where necessary - posterior teeth	2 711.20		T	S
8640	Removal of fractured post or instrument from root canal	721.40	+L		B
	Prosthetics (Removable)

IV. SPECIALISTS IN ORAL MEDICINE AND PERIODONTICS/PERIODONTISTS

PREAMBLE

1 The scheduled fees for diagnostic procedures may be charged irrespective of whether treatment is accepted or not.

2 The expenses appurtenant to diagnostic tests, laboratory procedures (unless routinely charged to the patient by the laboratory), special materials, medicaments, etc., shall be charged over and above the fee for treatment (See Rule 013)

3 If the extent of a procedure carried out is less than that specified in the fees, or if multiple procedures are carried out at a single visit and the value of the time factor is consequently reduced, the specialist may at his discretion charge a reduced fee or reduced fees as per modifiers. (See Rule 011).

4 Fees for surgical procedures include any postsurgical complications not exceeding three months.

5 The fee payable to a general practitioner assistant shall be calculated as 15% of the fee of the practitioner performing the operation, with the indicated minimum (See Modifier 8007); the fee for an assistant who is a specialist in oral medicine and periodontics shall be 33 1/3 % of the fee for the procedure. The patient must be informed beforehand that another dentist will be assisting at the operation and that a fee will be payable to the assistant. The assistant's name must appear on the invoice rendered to the patient.

(M) See Rule 009

IV. SPECIALISTS IN ORAL MEDICINE AND PERIODONTICS/PERIODONTISTS

Item	Description	N$	LAB	MP	TC
	DIAGNOSTIC PROCEDURES				
	Codes 8701, 8703, 8705 and 8707 cannot be charged at one and the same visit.				
8701	Consultation	337.20			A
	A periodontal consultation comprises a reasonably detailed examination and presentation and explanation of the findings to enable the patient to make a decision as to future treatment				
8107	Intra-oral radiographs, per film	134.10			B
8108	Maximum for 8107	1 062.30			B
8113	Occlusal radiographs	235.60			B
8114	Hand-wrist radiograph	548.40			A
8115	Extra-oral radiograph, per film (I.e. panoramic, cephalometric, PA)	548.40			B
	Maximum of two films per treatment plan.				
8812	CBCT capture and interpretation with limited field of view - less than one whole jaw	1 165.90			A
8813	CBCT capture and interpretation with limited field of view of one full dental arch - mandible	1 302.30			A
8814	CBCT capture and interpretation with limited field of view of one full dental arch - maxilla	1 302.30			A
8815	CBCT capture and interpretation with limited field of view of both dental arches without orbits and/or cranium	1 364.30			A
8816	CBCT capture and interpretation for TMJ series including two or more exposures	1 364.30			A
8817	CBCT capture and interpretation with limited field of view of one full dental arch - maxilla with orbits and/or cranium	1 488.40			A
8818	CBCT capture and interpretation with field of view of both dental arches - with orbits and/or cranium	1 662.10			A
8819	Interpretation of diagnostic image by a practitioner not associated with capture of the image, including the report	496.10			A
8820	CBCT image capture with limited field of view - less than one whole jaw	699.60			A
8821	CBCT image capture with limited field of view of one full dental arch - mandible	781.40			A
8822	CBCT image capture with limited field of view of one full dental arch - maxilla without orbits and/or cranium	781.40			A
8823	CBCT capture with limited field of view of both dental arches - without orbits and/or cranium	818.60			A
8824	CBCT capture for TMJ series including two or more exposures	818.60			A
8825	CBCT capture with limited field of view of one full dental arch - maxilla with orbits and/or cranium	893.00			A

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
8826	CBCT capture with field of view of both dental arches - with orbits and/or cranium	997.20			A
8811	Tracing and analysis of extra-oral film	63.00			B
8117	Study models - unmounted	152.30	+L		B
8119	Study models - mounted on adjustable articulator	369.70	+L		B
8140	Fee for treatment at a venue other than the surgery, inclusive of hospital visits, treatment under general anaesthetic, home visits; per visit	337.20			B
8703	Detailed clinical examination, records, radiographic interpretation, probing, percussion, diagnosis, treatment planning and case presentation for periodontal and/or implant cases Code 8703 is always a separate procedure from code 8701 and comprises inspection, percussion, probing and other diagnostic procedures and the systematic recording of every important feature in order to permit correct treatment planning.	1 129.30			A
8705	Periodic re-examination	337.20			A
8706	Appointment not kept - per half-hour (By arrangement with patient)	-			
8707	Periodontal screening A periodontal screening consists of the measurement and recording of a plaque index, a bleeding index, probing depths, a periodontal disease index, a microbiological assay and/or gingival crevicular fluid assay.	337.20			B
8711	Oral hygiene instruction (The patient must be informed prior to the service being rendered that a fee will be levied for oral hygiene instruction)	416.40			B
8713	Oral hygiene evaluation (If oral hygiene re-instruction is necessary, only Item 8711 shall apply)	199.00			B
8714	Full mouth clinical plaque removal	286.40			B
8715	Scaling	576.80			B
8721	Occlusal adjustment per visit	631.70			A
8723	Provisional splinting - extracoronal wire, per sextant	580.90	+L		A
8725	Provisional splinting - extracoronal wire plus resin, per sextant	840.90	+L		A
8727	Provisional splinting - intracoronal wire or pins or cast bar, plus amalgam or resin, per dental unit included in the splint	266.10	+L		A
	TEMPOROMANDIBULAR JOINT PROCEDURES				
8625	Bite plate for TMJ dysfunction	1 052.10	+L		S
	SURGICAL PROCEDURES				
8731	Periodontal abscess - treatment of acute phase (with or without flap procedure)	491.50			A

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
8737	Root planing with or without periodontal curettage, per quadrant	1 129.30			A
8739	Root planing with or without periodontal curettage, per sextant	901.80			A
8741	Gingivectomy-gingivoplasty, per quadrant	1 490.80			A
8743	Gingivectomy-gingivoplasty, per sextant	1 184.10			A
8749	Flap operation with root planing and curettage and which may include not more than 3 of the following: bone contouring, chemical treatment of root surfaces, root resection, tooth hemisection, a mucogingival procedure, wedge resection, clinical crown lengthening, per quadrant	3 389.90			A
8751	As item 8749, per sextant	2 809.00			A
8753	Flap operation with root planing and curettage and will include more than 3 of the following: bone contouring, chemical treatment of root surfaces, root resection, tooth hemisection, a mucogingival procedure, wedge resection, clinical crown lengthening, per quadrant	4 202.30			A
8755	As item 8753, per sextant	3 406.10			A
	Note 1) Each root resection, tooth hemisection, muco-gingival procedure, wedge resection and clinical crown lengthening shall be deemed to be one procedure. 2) Where a bone regeneration/repair procedure is included within a flap operation, Item 8766 shall apply in addition to the Item for the flap operation. 3) Where an apicectomy is included within a flap operation, either item 8760 or item 8764 with modifier 8006 shall apply to the item for the flap operation.				
8756	Flap operation with bone removal to increase the clinical crown length of a single tooth (as an isolated procedure)	2 065.60			A
8757	Frenectomy	1 657.40			A
8758	Surgical exposure of impacted or unerupted teeth for orthodontic reasons	2 264.70			A
8759	Pedicle flapped graft e.g. lateral sliding double papilla, rotated and similar (as an isolated procedure)	1 549.70			A
8761	Masticatory mucosal autograft extending across not more than four teeth (isolated procedure)	1 685.80	+L		A
8762	Masticatory mucosal autograft extending across more than four teeth (isolated procedure)	2 528.70	+L		A
8772	Submucosal connective tissue autograft (isolated procedure)	1 698.00			
8773	Cost of intrapocket chemotherapeutic agent	-			
	Used to report intrapocket chemotherapeutic agents provided by the practitioner				
8763	Wedge resection (as an isolated procedure)	989.10			
8760	Apicectomy including retrograde filling where necessary - anterior teeth	1 360.80		T	S
	When Code 8760 is part of a flap operation that requires an apicectomy, Modifier 8006 applies				
8764	Apicectomy including retrograde filling where necessary, posterior teeth	2 717.60		T	S

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
	When Code 8764 is part of a flap operation that requires an apicectomy, Modifier 8006 applies				
	When Code 8764 is part of a flap operation that requires an apicectomy, Modifier 8006 applies				
8765	Hemisection of a tooth, resection of a root or tunnel preparation (as an isolated procedure).	1 360.80		T	A
8766	Bone regenerative/ repair procedure excluding cost of regenerative material as part of a flap operation as described in Items 8749, 8751, 8753 and 8755, per procedure	808.40			A
8767	Bone regenerative/ repair procedure at a single site (Excluding cost of regenerative material - see code 8770)	2 100.20			A
8769	Subsequent removal of membrane used for guided tissue regeneration procedure	989.10			A
8770	Cost of bone regenerative/repair material	-		T	A
8768	Any other periodontal procedure involving a single tooth	989.10		T	A
8979	Harvesting of autogenous grafts (intra-oral)	524.00			S
9008	Alveolar ridge augmentation across 1 to 2 adjacent tooth sites	1 509.10	+L		S
9009	Alveolar ridge augmentation across 3 or more tooth sites	2 748.10	+L		S
9010	Sinus lift procedure	4 127.20	+L		S
	IMPLANT PROCEDURES				
	NAMAF does not approve of the re-use of any implant components because of the hazards to the patient.				
9182	Placement of endosteal implant, per implant	2 063.60	+L		S
9183	Placement of a single osseo-integrated implant per jaw	2 622.20			S
9184	Placement of a second osseo-integrated implant in the same jaw	1 964.10			S
9185	Placement of a third and subsequent osseo-integrated implant in the same jaw, per implant	1 316.10			S
9189	Cost of implants (Benefit by arrangement)	-			S
9190	Exposure of a single osseo-integrated implant and placement of a transmucosal element	968.80			S
9191	Exposure of a second osseo-integrated implant and placement of a transmucosal element in the same jaw	727.10			S
9192	Exposure of a third and subsequent osseo-integrated implant in the same jaw, per implant	487.50			S
9198	Implant removal	1 338.50			
	This procedure involves the surgical removal of an implant, i.e. cutting of soft tissue and bone, removal of implant, and closure.				
	ORAL MEDICAL PROCEDURES				
8781	Consultation, examination, diagnosis and treatment of oral diseases, pathological conditions of the surrounding tissues, temporomandibular joint disorders or myofascial pain-dysfunction: Straight forward case	337.20			S

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
8782	Consultation, examination, diagnosis and treatment of oral diseases, pathological conditions of the surrounding tissues, temporomandibular joint disorders or myofascial pain dysfunction: Complex case	597.10			S
8783	Subsequent consultation for same disease/condition	251.90			S
8785	Biopsy - incisional/excisional (e.g. epulis)	700.70			S

8787	Any other procedure connected with the practice of oral medicine	357.50			S

V. SPECIALIST ORTHODONTISTS

PREAMBLE

1 Where an invoice refers to orthodontic services, a statement containing the following information shall accompany the first invoice to the member of the fund:

a the code number of the envisaged treatment;

b a plan of treatment indicating the following;

i the total fee that would be charged by the practitioner for the treatment;

ii the duration of the treatment

iii the initial primary fee payable by the member; and

iv the monthly fee which the member must pay

2 The fee for corrective therapy (i.e. codes 8861 to 8888) is an all-inclusive fee and no additional fees for additional visits (Code 8803 or for Codes 8151, 8155 and 8161)may be charged

3 When partial fixed appliance therapy or preliminary treatment (8858, 8861, 8865 or 8866) is followed by full fixed appliance treatment (8873 to 8888 the fee initially charged for 8858, 8861, 8865 or 8866) is deducted from the full fixed appliance fee and the remainder then becomes the fee charged for the second stage of full fixed appliance therapy

4 If more than one of the stages of treatment of a multiphase treatment procedure is carried out by the same orthodontist, then the total fee should not exceed the fee laid down by the original classification at current values, save in exceptional circumstances, e.g. cleft palate treatment

5 The fees for services covered under the heading `Fixed appliance therapy' (items 8861 and 8865 to 8887) shall be charged over the period of treatment in a manner to be determined by the individual orthodontist

6 If treatment is discontinued prior to its completion, the balance of the fee shall be assessed on the basis of the services rendered up to the time of termination.

7 There are no specific codes for orthodontic treatment in the general practitioners' schedule, and the general practitioner must refer to the specialist orthodontists schedule. The codes for the treatment must be quoted together with Modifier 8004 (See Rules 009 and 011) . This denotes that a general practitioner is delivering the treatment and the fee is calculated as up to two- thirds of the appropriate specialists fee. Where "+L" is denoted this can be added on to the two-thirds fee. If "+L" is not denoted then this is incorporated in the appropriate two-thirds fee and cannot be added to the invoice

(M) See Rule 009

V. SPECIALIST ORTHODONTISTS

Item	Description	N$	LAB	MP	TC
	CONSULTATIONS				
8801	First consultation	335.60			A

	charged but no further fee/benefit				
	Fixed appliance therapy				
	Partial fixed appliance therapy - Preliminary treatment				
	The intention of this phase in treatment is to intercept and modify the development of skeletal, dental and functional components of developing malocclusion usually in the mixed dentition.				
	The application of codes 8865 and/or 8866 requires the use of fixed bands and/or brackets as a major component of the appliances including appliances incorporating an anterior and posterior bite plane				
8865	Maxillary or mandibular arch	11 152.30			A
8866	Combined maxillary and mandibular arch	15 334.70			A
8861	Minor fixed appliance	4 182.40			A
	Comprehensive fixed appliance therapy				
	This form of therapy requires the placement of fixed bands and or brackets on the majority of teeth within each arch and the subsequent placement of active arch wires to treat the case through to completion of active treatment excluding the retention phase				
	SINGLE ARCH TREATMENT				
8867	Mild	11 985.10			A

VI. SPECIALIST MAXILLO- FACIAL AND ORAL SURGEONS

PREAMBLE

(See Rule 011)

1 If extractions (codes 8201 and 8202) are carried out by specialists in maxillo- facial and oral surgery, the fees shall be equal to the appropriate rate plus 50 per cent (See Modifier 8002).

2 The fee for more than one operation or procedure performed through the same incision shall be calculated as the fee for the major operation plus the fee for the subsidiary operation to the indicated maximum for each such subsidiary operation or procedure (See Modifier 8005).

3 The fee for more than one operation or procedure performed under the same anaesthetic but through another incision shall be calculated on the fee for the major operation plus:

75% for the second procedure/operation (Modifier 8009)
50% for the third and subsequent procedures/operations (Modifier 8006)
This rule shall not apply where two or more unrelated operations are performed by practitioners in different specialities, in which case each practitioner shall be entitled to the full fee for his operation
If, within four months, a second operation for the same condition or injury is performed, the fee for the second operation shall be half of that for the first operation.

The fee for an operation shall, unless otherwise stated, include normal post-operative care for a period not exceeding four months. If a practitioner does not himself complete the post-operative care, he shall arrange for it to be completed without extra charge: provided that in the case of post-operative treatment of a prolonged or specialised nature, such fee as may be agreed upon between the practitioner and the medical aid fund may be charged.

4 The fee payable to a general practitioner assistant shall be calculated as 15% of the fee of the practitioner performing the operation, with the indicated minimum (See Modifier 8007). The assistant's fee payable to a maxillo- facial and oral surgeon shall be calculated at 33,33% of the appropriate scheduled fee (Modifier 8001). The assistant's name must appear on the invoice rendered to the patient.

5 The additional fee to all members of the surgical team for afterhours emergency surgery shall be calculated by adding 25% to the fee for the procedure or procedures performed (8008).

6 In cases where treatment is not listed in this schedule for general practitioners or specialists, the appropriate fee listed in the medical schedule(s) shall be charged, and the relevant medical item number must be indicated (See Rule 012).

(M) See Rule 009

VI. SPECIALIST MAXILLO- FACIAL AND ORAL SURGEONS

Item	Description	N$	LAB	MP	TC
	CONSULTATIONS AND VISITS				
8901	Consultation at consulting rooms	335.00			S
8902	Detailed clinical examination, radiographic interpretation, diagnosis, treatment planning and case presentation	1 119.50			S
	Code 8902 is a separate procedure from code 8901 and is applicable to craniomandibular disorders, implant placement and orthognathic and maxillo-facial reconstruction				
8903	Consultation at hospital, nursing home or house	373.20			S
8904	Subsequent consultation at consulting rooms, hospital, nursing home or house	250.80			S
8905	Weekend visits and night visits between 18h00 - 07h00 the following day	547.70			S
8907	Subsequent consultations, per week, to a maximum of	628.00			S
	Subsequent consultation shall mean, in connection with items 8904 and 8907, a consultation for the same pathological condition provided that such consultation occurs within six months of the first consultation				
	INVESTIGATIONS AND RECORDS				
8107	Intra-oral radiographs, per film	134.40			B

9060	Le Fort I osteotomy with inferior repositioning and inter positional grafting	22 127.20			S
9061	Palatal osteotomy	6 893.60			S
9063	Le Fort II osteotomy for correction of facial deformities or faciostenosis and post-traumatic deformities	25 178.80	+L		S
9065	Le Fort III osteotomy for correction of severe congenital deformities, viz. Crouzon's disease and malunited craniomaxillary disjunction	37 726.10	+L		S
9066	Surgical assisted maxillary or mandibular expansion Note: This procedure is to expand the maxilla or mandible to facilitate orthodontic aligning of constricted dental arches.	5 992.80			
9069	Functional tongue reduction (partial glossectomy)	4 494.10			S
9071	Geniohyoidotomy	2 694.40			S
9072	Functional closure of the secondary oro-nasal fistula and associated structures with bone grafting (complete procedure)	19 709.70	+L		S
	TEMPOROMANDIBULAR JOINT PROCEDURES For Items 9081, 9083 and 9092 the full fee may be charged per side				
9073	Bite plate for TMJ dysfunction	1 045.30	+L		S
9074	Diagnostic arthroscopy	2 973.30	+L		S
9075	Condylectomy or coronoidectomy or both (extra-oral approach)	7 475.40	+L		S
9076	Arthrocentesis TMJ/ Arthrosintese TMG	1 643.10	+L		S
9053	Coronoidectomy (intra-oral approach)	3 739.70			S
9077	Intra-articular injection, per injection	447.40			S
9079	Trigger point injection, per injection	353.10			S
9081	Condyle neck osteotomy (Ward/ Kostecka)	2 989.30			S
9083	Temporomandibular joint arthroplasty	7 475.40			S
9085	Reduction of temporomandibular joint dislocation without anaesthetic	593.90			S

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
9087	Reduction of temporomandibular joint dislocation, with anaesthetic	1 201.80			S
9089	Reduction of temporomandibular joint dislocation, with anaesthetic and immobilisation	2 989.30			S
9091	Reduction of temporomandibular joint dislocation requiring open reduction	7 475.40			S
9092	Total joint reconstruction with alloplastic material or bone (includes condylectomy and coronoidectomy)	19 960.50	+L		S
	SALIVARY GLANDS				
9093	Removal of salivary calculus	1 350.20			S
9095	Removal of sublingual salivary gland	3 328.40			S
9096	Removal of salivary gland (extra-oral)	4 931.40			S
	IMPLANTS				
	NAMAF does not approve of the re-use of any implant components because of the hazards to the patient.				
	For items 9180 to 9192 the full fee may be charged, i.e. Note 2 of Rule 011 will not apply				
9180	Placement of sub-periosteal implant - Preparatory procedure/operation	4 078.80			S
9181	Placement of sub-periosteal implant prosthesis/operation	4 078.80			S
9182	Placement of endosteal implant, per implant	2 046.40	+L		S
9183	Placement of a single osseo-integrated implant per jaw	2 600.10			S
9184	Placement of a second osseo-integrated implant in the same jaw	1 948.10			S
9185	Placement of a third and subsequent osseo-integrated implant in the same jaw, per implant	1 306.10			S
9189	Cost of implants (Benefit by arrangement)	-			
9190	Exposure of a single osseo-integrated implant and placement of a transmucosal element	963.00			S
9191	Exposure of a second osseo-integrated implant and placement of a transmucosal element in the same jaw	722.30			S
9192	Exposure of a third and subsequent osseo-integrated implant in the same jaw, per implant	483.50			S
9046	Placement of Zygomaticus fixture, per fixture	5 928.60			
9198	Implant removal	1 328.20			
	This procedure involves the surgical removal of an implant, i.e. cutting of soft tissue and bone, removal of implant, and closure.				
8761	Masticatory mucosal autograft extending across not more than four teeth (isolated procedure)	1 671.20	+L		A
8772	Submucosal connective tissue autograft (isolated procedure)	1 685.30			
8767	Bone regenerative/ repair procedure at a single site	2 082.50			A
8769	Subsequent removal of membrane used for guided tissue regeneration procedure	981.10			A

Item	Description	N$	LAB	MP	TC
8770	Cost of bone regenerative/repair material	-			
	Codes 8761, 8767 and 8769 to be used only as part of implant surgery				
	Pedicule Flaps				
9284	Musculofascial flap	-			
9286	Musculocranial flap	-			
9288	Buccal fat pad (major repair)	-			
	Repair of Frontal Bones The use of codes 9274, 9275 and 9278 imply the bicoronal/hemicoronal approach.				
9274	Repair anterior table, frontal sinus and/or supraorbital rim	-			
9276	Repair anterior and posterior wall w/ obturation and/or cranialisation of frontal sinus	-			
9278	Repair medial canthal ligament (canthopexy), per side	-			
	CLEFT LIP AND PALATE				
9220	Repair of cleft hard palate (unilateral)	11 012.50			S
9222	Repair of cleft hard palate (bilateral, one procedure)	13 979.70			S
9224	Repair of cleft hard palate (bilateral, in two procedures)	20 827.20			S
9226	Repair of cleft soft palate (without muscle reconstruction)	9 228.90			S
9228	Repair of soft palatum (with muscle reconstruction)	13 395.90			S
9230	Repair of submucosal cleft and/or bifid uvula (with muscle reconstruction)	9 973.20			S
9232	Velopharyngeal reconstruction (uncomplicated)	10 264.10			S
9234	Velopharyngeal reconstruction (complicated type)	10 972.30			S
9238	Functional repair of oro-nasal fistula (distant flaps - in a single procedure)	6 277.60			S
9240	Functional repair of oro-nasal fistula (distant flaps - in two procedures)	10 950.30			S
9246	Secondary periosteal swivel flaps for bone induction	5 471.10			S
9248	Lip adhesion	2 048.40			S
9250	Unilateral cleft lip repair (without muscle reconstruction)	3 605.30			S
9252	Unilateral cleft lip repair (with muscle reconstruction)	4 881.30			S
9254	Bilateral cleft lip repair (without muscle reconstruction)	5 031.80			S
9256	Bilateral cleft lip repair (with muscle reconstruction)	7 774.30			S
9258	Anterior nasal floor repair (between alveolus)	1 968.20			S
9260	Partial revision of secondary cleft lip deformity	1 968.20			S
9262	Total revision of secondary cleft lip deformity (with functional muscle reconstruction)	4 435.90			S
9264	Abbe-flap (in two stages)	5 023.70			S
9266	Columella reconstruction	2 967.30			S

© The Namibian Association of Medical Aid Funds

Item	Description	N$	LAB	MP	TC
9268	Partial reconstruction of nose due to cleft deformity	3 771.80			S
9270	Complete reconstruction of the nose due to cleft deformity	5 960.70			S
9272	Paranasal augmentation for nasal base deviation	2 967.30			S
